

I am incredibly thankful and blessed for this opportunity to pursue a higher education with the support of the Glory Stack Memorial Scholarship. Glory's determined and thoughtful spirit has greatly impacted many young women to go into the STEM field, but more importantly, to have a strong faith along the way. Glory was proud of her love of God, and it showed through her words and actions. I hope that I can reflect just a few of Glory's many amazing attributes throughout the next four years. Once again, I am very thankful for this incredible opportunity that will allow me to pursue an education at UNC Chapel Hill, and later practice Physical Therapy!
